ESL/EFL Curriculum

- **The Let's Talk! Language Teaching Platform** is used to host the Let's Talk! ENGLISH media library.   This platform includes self-access support and has an available classroom management module. It supports Internet-based 24/7 access from any device.

- **World-class ESL/EFL curriculum** with activities for Speaking, Listening, Writing, Reading, Pronunciation and Quizzes.

- **Digital media library with over 2,000 ready-made, all-electronic activities** that teachers can assign to their students.

- **Authored by Teachers for Teachers.** The Let's Talk! English authors are language teachers who collectively represent more than 75 years of classroom experience.

- **CEFR Proficiency Levels A1, A2, B1, B2 and C1**. Courses are based on international Common European Framework of Reference for languages standard. These Beginner through Advanced levels are easily cross-referenced with alternate proficiency scales like WIDA (USA) and CLB (Canada).

- **Each course represents 80-100 hours of student work** and includes over 400 activities.   While students work in a paperless environment, teachers have a 400-page Teachers' Handbook that details all course activities.

- **More than 80% of activities use auto-grading** to provide immediate feedback to students and to free-up teachers' time from detailed review of student work.

- **Pronunciation activities use AI-based speech recognition** to provide immediate feedback for students and auto-grading to free up teachers' time from reviewing student work.

- **Blend of self-access (85%) and classwork (15%).** Classwork focuses on individual student presentations and on collaborative work in conversation pairs or small groups.

Course & Chapter Organization

Let's Talk! ENGLISH courses are partitioned into 6 chapters, and each chapter includes 3 thematic sections. In the example shown below, A2 Chapter 4 (Around Town), the sections are titled "In the City", "Directions" and "Getting Around Town". All chapters have clearly-defined learning objectives.

Activities are included for Speaking, Listening, Reading and Writing skills. Pronunciation activities also help build conversation skills. Vocabulary and Grammar elements are integrated within all sections and the Let's Talk! component employs interactive video materials to provide both authentic language and authentic situations.
